JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Government is doing everything possible to prevent the spread of the disease to other places.

INDIA.

Report from Calcutta—Transactions of Service—Cholera, plague, and smallpox.

Acting Assistant Surgeon Eakins reports, May 17, as follows:

Week ended May 12, 1906. Bill of health issued to the steamship *Olan MacLachlan* bound for Boston and New York with a total crew of 72. The usual precautions were taken, holds fumigated, rat guards placed on wharf lines, and Lascars' effects disinfected.

Week ended May 5, 1906: 89 deaths from cholera, 129 deaths from plague, and 131 deaths from smallpox in Calcutta.

In Bengal during the same week, 1,163 cases and 1,108 deaths from plague.

In India during the same week there were 15,892 cases and 13,296 deaths from plague.

ITALY.
